Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative pointed out what the applicant believes to be the differences between the prior art of record and what amendments the applicant is proposing. In particular the applicant's representative put forward the proposed amendment that will claim direct control of printing of the postal indicia via a secure communication from a server on a remote printing apparatus. Examiner requested the applicant's representative to point out where in the specification this step has been discussed and the examiner will take the amended step into consideration once the office has received a new amendment. No agreement on the allowability of discussed claims was reached. .
